

The mission of the Huron Heights Secondary School Library Learning Commons is to assist students in being effective users of information while providing them with the skills necessary to be life-long learners. This mission is accomplished by:

- Advocate the democratic right of all Ontario students to have equitable access to information
- Collaborating with teachers to develop strategies that meet the needs of students while augmenting learning within the classroom
- Supporting literacy initiatives at the school level which enhances the provincial curriculum documents
- Provide access to a variety of materials in varying formats
- Provide instruction that will cultivate an interest in reading and positive use of information

The library learning commons of Huron Heights Secondary School will maintain a safe, inclusive and welcoming atmosphere that incorporates current materials (print and electronic) for curricular and personal use. Teacher-librarians will strive to ensure the library is a location within our school which aids in developing responsible research habits, assisting in developing good reading skills and developing collaboration skills.
