

## Student Behaviour

Students share in the responsibility of creating a successful learning environment. At Huron Heights students are expected to:

Be present and be on time

Regular and punctual attendance is an important factor in achieving academic success. Students are expected to attend classes regularly and to follow established attendance validation procedures.

Be prepared

Students are expected to arrive at every class with the required materials as specified by their teachers.

Be cooperative and courteous

Students are expected to be polite and cooperative with **ALL** staff members (administrators, teachers, educational assistants, secretaries, custodians, and supervision monitors) including situations where students are asked to identify themselves.

Students are expected to be courteous with all members of the Huron Heights community including fellow students, parents, neighbours, and visitors to the school.

Be respectful and safe

Huron Heights Secondary School is a wonderful new facility with up-to-date furniture and equipment. Students are expected to show pride in their school and to treat it with respect.

As key members of the community, students are expected to help maintain a clean and safe school environment. Furthermore, students are expected to respect our neighbours and their properties by not loitering and littering.

Be hardworking and responsible for your own learning

A student can only achieve his/her personal best by taking initiative and by giving full effort. Students are expected to accept responsibility for their behaviour and their own learning.

Be ambassadors in the community

Our students are ambassadors of HHSS and are expected to be good citizens. Do not trespass on the private property of others, or loiter at places such as plazas or retail outlets in our school's community. Be good citizens of our community.
